

Software Engineering for Adaptive
and Self-Managing Systems

Session 7

Analyzing Quality Attributes of Adaptive and Self-Managing Systems

- ◆ Digitally Evolving Models for Dynamically Adaptive Systems
*Heather J. Goldsby, D.B. Knoester, B.H.C. Cheng, P.K. McKinley
and C.A. Ofria, Michigan State University, USA*
- ◆ Mixed-Mode Adaptation in Distributed Systems: A Case Study
Karun N. Biyani and S.S. Kulkarni, Michigan State University, USA
- ◆ Designing Run-Time Fault-Tolerance Using Dynamic Updates
Ali Ebneenasir, Michigan Technological University, USA
- ◆ Discussion
